No. 5479-87—R. F. 263-92, DATED, BANGALORE, 12TH DECEMBER 1895.

ORDER.—The attention of the Deputy Commissioners of Districts is drawn to the orders marginally noted and they are requested to pay particular attention to the maintenance and examination of field boundary marks in their respective Districts.

1. Para 2 of Government Proceedings No. 14996-5004—R. 1831, dated 8th March 1893.
2. Para 2 of Government Proceedings No. 6346-54—R. F. 318-92, dated 29th September 1893.
3. Proceedings No. 3562-70—R. 1422, dated 13th October 1895.

2. The measurers placed at their disposal must be chiefly employed on this work and a thorough and complete inspection should be made and a special report in regard to the condition of boundary marks in each Taluk submitted to Government at the close of the current official year.

C. SREENIVASIENGAR,
Revenue Secretary.

To—The Deputy Commissioners of Districts.
The Superintendent of Revenue Survey in Mysore for information.

Draft Rule 22 Sch. 2 (1) (c) (ii) Amended

Govt. Press. No. 1814-22. 4877-97. RA 963-92 9/8/97

Officers serving Kolam should be taken up and sent up for instruction by the Commr. only during vacation as schedule Rule 22 Sch. 2 (1) (c) (ii) Amended

The Educational value of this work is very considerable and should be encouraged. Kolam Surveyors should be trained up as Surveyors

This procedure may be adopted by all the Dy Comrs so that in course of time all the present Shekdars may acquire a thorough acquaintance with this important work.

Proposals as noted I would like a Circular Letter to be sent to Collectors & Dy Comrs this opinion obtained.

(5) 2)

I hope much has been done to improve the condition of the boundary marks - Referring to the previous orders on the subject I think it is time that an enquiry should be made & the results obtained on these present orders.

It is also desirable to find out whether the manners & surveyors allotted to Talugs are doing sufficient work - Who test their work? There was a proposal by the S. Supt. that during the present year this should be done? I shall be obliged if the present practice is ascertained - also what the Dy Commrs have to say to the proposal of the S. Supt.

The question of the
improvement of
the Shekdari service
and the redistribution
of Hobblers has engaged
the consideration of
Govt. But there is no
reason why arrange-
ments should such as
once is effected for
giving the existing
Shekdaris a good
training in the
land measuring
work. On the whole
the suggestion made
by the Dy Commr
Mundra seems
practical and it
is well effort that
one Shekdar in each
taluk may temporarily
relieved and placed
under the taluq
measurer for the period
of one month during
which time he must
be required to learn
the work & obtain
a certificate of pro-
-ficiency. Such period
the Shekdar undergoes
should be considered
as on duty. If however
a longer time than
one month is necessary
he should be placed
on leave with or with
out pay as he may be
entitled to and be
allowed to complete
his training & obtain
the required certificate

Statement showing the number of Sheets taken for each district to the Revenue Land measuring work.

True

3) A draft order was prepared on the above lines & sent to Col. J. F. Grant for opinion. That officer sends the accompanying reply, the gist of which is as follows: —

(1) Lately a Competitive examination was held for posts as Learners in the Survey Deptt., at which 400 to 500 Candidates appeared. Of these, 200 physically fit, not too old and not too young were selected after personal examination. These 200 were then examined in Arithmetic, hand-writing and figuring. Now these are the 32 first on the list being practically trained under a qualified Measurer. They have been at class for some 3 months & are doing well. The list contains at least 25 or 30 more men who may be considered good material if Draughts required —

(2). As regards Bailiffs — The Col. points out that these officials who make reports and inspections of a responsible character, such as the accepting or attestation of Candidates, should not

(X) I should have preferred your reproducing the original (X)

be entrusted with land measuring work, that in Bombay only trained men are made circle inspectors, that Revenue officers have their own district duties and are not allowed to measure, that it is risky to depart from the Bombay practice regarding employing untrained men, that therefore only trained men should be employed for survey work, and that Sheikdars should be made, and quarter Circle men in Short Gujarat liable for out-door work.

2nd point. — As an other alternative, he proposes that in the event of its being decided to employ Sheikdars in land measurement work in addition to their own duties, they must first be trained & that no one who is not fit should be appointed. All vacancies of Sheikdars should be filled from the list

of men who have been trained
satisfactorily and can show
certificates. Then there will
be available such of the present
Sheriffdars as can pass and
certified men who come from
the Survey deptt: training
class, to fill vacancies. Of
the existing Sheriffdars some,
who are old, weakly, with
bad eye-sight, in short
unlikely men, should be
sent to the head (master) Surveyor
training class. The Dy
Commrs: of allahad depts:
should select from 25 to
30 men, whether at present
Sheriffdars or not, who are
real natural men and
send them to be trained so that there may not be any difficulty to make natural Service relievable.
On the whole, he is of the
opinion that the no of Sheriffdars
should be reduced by con-
verting them into Head
(Quarter) men, that the
measuring duties should
be kept distinct + for trained
men only, that it will be

the utmost economy in ...
& that the production of ...
number of Sheets can will
allow more men to be em-
-ployed as Talak measurers.

How do orders regarding Nagpur Circuit re

Suggestion made by the Deputy Commissioner of Tumkur seems practical, and it is to the effect that one Sheristadar in each Taluk may be temporarily relieved and placed under the Taluk Nemaneer for the period of one month, during which time he must be required to leave his work and obtain a certificate of proficiency. During such period the Sheristadar should be considered on duty. If however, a longer time than one month is necessary, he should be allowed such leave as he may be entitled to & allowed to complete his training & obtain the required certificate. This procedure may be adopted by all the Taluk Cutcheries, so that in course of time all those duly qualified among present Sheristadars may acquire a

One month is quite an insufficient period. Deputy Commissioners should be in a position to say that a person has been deputed for training, but cannot say that he has passed the examination. Unless the period of training is extended to four months, the Sheristadars will not be able to attend the Measurement Classes and obtain the necessary certificate in time. Besides this, the Sheristadar will be absent from his office for a month, and his work will fall in arrears. The Commissioner can confer with the Deputy Commissioners from time to time and arrange for the Sheristadars to attend the Classes in rotation. I would suggest that Sheristadars who have already passed the examination may not be required to undergo training.

Sheristadars

The object of the draft order is to train Sheikdars in land measuring work in order to enable them to carry out Sub divisions of Survey Nos.

"Sub dividing and plotting Sub divisions of Survey Numbers", was one of the duties prescribed for Sheikdars by the Committee for the revision

[redacted] Sheikdars and even now we come across Sheikdars on the ground with maps in their hands - they must at least be able to carry out the same work - effectively as they are at present made to do. I have made some alteration in the draft. Mr S. Subd may see

25.IX.00

of the Sheikdari Service Scheme.

5) The Council Resolution of 30th June 1900. as modified by that of 17th July 00, directs that pending orders of Govt. on recent improving the pay & Status of the Sheikdars, defining their duties, & prescribing the qualifications required for that office, the Sheikdars should perform all the duties enumerated in para 16 of the Committee's Report, except that referred to in clause (12) viz. Subdividing & plotting Sub divisions of S. numbers —

Thus it will be seen that Sheikdars are not expected to know land measuring work for the present. The order proposed to be issued will be ineffective till the duties of the Sheikdars are definitely laid down under the revision Scheme on which final orders remain to be issued —

Order thereon:—

From the replies read above, it is observed that out of 460 Shekhars in the whole State, only 50 ~~are required~~ have a good knowledge of ~~with~~ the land measuring work & 95 know a little of it and the others know nothing of the work. The question of the improvement of the Shekhari service and the re-distribution of Holdis is under the consideration of Govt. But, pending final orders thereon, arrangements should not at once be made for giving the existing Shekhars trained, some training in the land measuring and testing the work. On this point, the ~~Dy~~ Commr. may make suitable enquiries. There is no reason why

(Note Continued) —

15 The Supdt of Rev Survey, to whom the draft order as modified by the 1st Commissioner, had been forwarded for opinion, states that subject to the following suggestions & restrictions, the order, proposed to be issued, appears all purposes: —

(1) A training class will be opened from 1st Nov next, where the Sheikdars may be given necessary training, along with the 3 new Rev Probationers to be attached to his Supdt.

(2) The work of Sub-dividing lands having been reduced under Govt Proc: No. 7035-43 R2308 3 4 4 1900, & there being a sufficient no of Measurers in each District, Sheikdars need not be entrusted with land measuring work as one of their legitimate duties. However, a Sheikdar qualifying himself as a passed Measurer & holding a certificate to that effect from the Supdt of Rev Survey may make

& No 2371 R 7 20 Jy 98 28 9 ..

x No. 2378 1.10.98.

D modification of Rule XX of the Rev Rules regarding Minimum fee for Subdivision of lands —

only
a new Survey no. is to be
ordered to be done by the
Supdt of Rev. Survey - In
the training class, the Sheris-
-tars will also learn a
good deal that will be
useful to them in the
ordinary duties of their office —
(3) Under the views enter-
-tained by Govt, the training
class may be permanently
maintained with advantage.
Something like 200 Sheristars
could be put through a course
of undoubtedly useful
instruction every year.
If one Sheristar is to be
sent from each Taluk, the
class will be almost too
large & will entail the
use of a large building
& perhaps two instructors
instead of one. Perhaps,
4 from each District
might be considered Suf-
-ficient as a beginning.

Proceedings of the Government of Mysore, Revenue, dated 16th August 1897.

READ :—

Docket No. 774, dated 15th February 1896, from the Deputy Commissioner, Bangalore district, submitting, with reference to the instructions contained in Government Order No. 5479-87—R. F. 263-92, dated 12th December 1895, a copy of the Circular Order issued by him to the Amildars and Deputy Amildars of his district, *in re* examination of field boundary marks by Measurers.

No. 1814-22—R. F. 263-92, DATED, BANGALORE, 16TH AUGUST 1897.

ORDER THEREON.—Government observe that the last sentence of the Deputy Commissioner's order above referred to, which directs that Measurers need not be employed on the subdivision of occupied lands, and that applications for such subdivision should lie over, is incorrect, inasmuch as the Government Order referred to did not contemplate such a course.

2. It is a legitimate duty of shekdars to carry out the subdivision of survey numbers. The Deputy Commissioners will report how many of their shekdars know the land measuring work. The salary of this class of officials has been recently raised and it is desirable that none but thoroughly qualified men should be appointed. A knowledge of land surveying should be deemed an essential qualification. Having regard to the importance of this class of officials, even shekdars on Rs. 15 should be brought under the operation of the rules for the admission of candidates to the subordinate service.

Government are accordingly pleased to direct that the procedure laid down in Notification No. 3 of the 12th April 1888 be followed in the case of shekdars irrespective of their pay.

3. Government take this opportunity to point out to the Deputy Commissioners that the hobli charges, as at present constituted, appear to be very unequal, and in not a few instances they are too small. A re-adjustment of the hoblis and a reduction in their number seem expedient and feasible and, if carried out, it will perhaps be possible to utilize the savings effected in the pay of shekdars to further improve their position by instituting a better paid class for a few of the most deserving. Deputy Commissioners are requested to consider this suggestion and submit a detailed and full report of their views and recommendations at an early date. In the meanwhile they are requested to see that the work of subdividing the survey numbers in accordance with the present practice will not be suspended.

C. SREENIVASIENGAR,
Secy. to Govt., Gen. & Rev. Depts.

The Deputy Commissioner, Bangalore District.
The Deputy Commissioners of other Districts.
The Superintendent of Revenue Survey in Mysore.

Exd.—H.A.E.

No 40

Ent.

Deputy Commissioner's Office
Tumkur District
Dated Tumkur 10th July 1893.

To.

The Secretary to the Government
of Mysore, General and Revenue
Departments.

Sir,

Referring to para 2 of Government order No: 1810-22 / RF 263-92 dated the 10th August 1892, I have the honor to submit herewith a list showing the names of Shekdars in this District, with remarks as to their knowledge of land measuring and Phod work. It will be seen that the majority of them are ignorant of Land measuring. I would propose that each Shekdar be called in to the Taluk Head Quarters for a month and required to learn land measuring and Phod work under the Taluk Amildar, the Shekdar being considered as on duty during this period. If he fails to learn the work within

a

a month, he should be compelled to take leave without allowance and not allowed to rejoin his appointment till he can produce a certificate from the Raja Medical as to his knowledge in Phad work.

2. Proposals for the revision of Salaries have already been submitted to Government through the above channel of Agricultural and other Statistics.

I have the honor to be

Sir,

your most obedient servant

Thomas Kennie Mackie
for Deputy Commissioner
Tumkur District

Bangalore 23rd July 1898

To (45) 25
The Secretary to the Govt.
of Mysore - Rev: & Genl. Depts.

Sir,

With reference to your docket-
No 499-505
R.7263-92 of the 19th July 1898 calling
for reply to paras 2 & 3 of Govt.
order No 1814-22
R.7263-92 of the 16th August-
1897 I beg to state as follows. —

2. In para 2 of the said order
enquiry is made as to how many
of the Shikdars know the land
measuring work. - Replies to this
query have not as yet been received
from Talukas. - Urgent reminders
have been sent. - In the meanwhile
I may perhaps submit that only
a very few of them may know
some thing of the land measuring
work.

3. In the 3rd para readjustment of
the present hobblies is suggested
and proposals therefor are called for.
In reference thereto I beg to state

List of Sheikdars in the Tumkur District

OFFICE OF THE Supdt Farms
MYSORE DISTRICT,

Dated Mysore 5/7 January 1897

To

The Secretary to the Government of Mysore,
General and Revenue Departments.

SIR,

Adverting to Government Proceedings no. 1314-22 dated 16th August 1897, I have the honor, R. Fl. 263-92 to submit herewith a list of sheikdars who know land measuring in the District as reported by the Amildars of the respective Taluks. It will be seen that a very few of the Sheikdars know the work, but all of them are more or less acquainted with the old system of measuring lands and may, I think, be practically employed for the sub-division of survey fields whenever necessary subject to their work being tested and rectified by the Taluk measurers. They will have to be required to learn land surveying within a given time and the District Surveyor directed to watch the progress they make in the matter.

2. A general scheme for the improvement of the sheikdars' service and for a readjustment of the hobblies has already been got up

Taluk.	Hobli	Name of Sheikdar	Grade.	Pay.	Remarks.
Heggadadévankoté	Kaveda	Ramachendra Bapu	3d. grade	15	The Amildar reports that the sheikdar knows land measuring work and sub-division of survey numbers.
Gundalpet	Hangala	Ramachendra Rama	do.	15	The sheikdar states that he knows land measuring work and sub-division of survey numbers.
Nanjengud	Tagur	Sindaramiah	do.	15	The Amildar reports that the sheikdar knows land measuring work and sub-division of survey numbers.
Nagamangala	Konakeré	Ramanuja Iyengar	2d. grade	20	The sheikdar states that he knows land measuring work and sub-division of survey numbers.

Despatched 21st Secretariat

Received

General No. 2967
No. 479

Enclosure No. 2

Office No; 5:33
B.9 263-92 dated 28th January

99 enquiring how the Statistics
are entered in the Statement
while there ought to have been
only 63 as per Government Pro-
ceedings No. 5006 dated 30th
his 7:35:56
April 1897.

With reference to the above
I have the honor to state that in
connection with the reconstitution
of Secretariat Taluk 30 villages
remaining after transfer of some
villages

them owns distinct duties and are not allowed to measure

7. It strikes me as risky to depart from the Bombay practice not only as regards employing untrained men but also as regards the subdivision allowed in Mysore on which ballon point I have so exhausted my remonstrances that I am diffident about saying any more.

8. My advice is to employ only trained men for survey work and, as regards Shekdars, to adopt the plan sketched out in the printed Report I gave you, that is, to make them Head Quarter men, in short Jamadars, liable for out-door work - You could, under this plan, considerably reduce the number.

9. It is false economy to employ [illegible] men simply because they are at hand like these Shekdars

10. A "sine qua non", in my opinion, is that whatever men are employed they must be trained. At Taluk Measurer cannot train his disciples like I am training the 33 learners now in class.

11. [illegible] an alternative to my plan at Para 8 and if Govt feels that the difficulty of having the same (89) Official entrusted with both responsible reports and measuring can be got over, in short if Govt is determined to employ Sheikdars, then let me have them first and let no man be appointed who is not fit — Let all vacancies of Sheikdars be filled from the list of men who have trained satisfactorily and can show certificates. Thus there will be available ^ such of the present Sheikdars as can pass and certified men who come from my training Class to fill vacancies

12. Of the existing Sheikdars none who are old, weakly, with bad eyesight, in short unlikely men, should be sent to the Head Quarter training Class.

13. I strongly recommend that the Malnad Dept Commissioner should select from 25 to 30 men, whether at present Sheikdars or not, who are real Malnad men and send them to be trained. Our great difficulty is to make Malnad service palatable — Our local Malnad-born men would not mind. Only very good and likely men should be sent.

14. I am myself in favour of reducing the number of Sheikdars by converting them into Head Quarter men and of keeping the measuring duties distinct and for trained men only. It will be the truest economy in the end. If you can reduce the number of Sheikdars it will allow more men to be employed as Talati Measurers.

villages to Secunderabad from Medchal Taluk were formed into a separate Hobli in the latter Taluk, called Alwar Hobli with Headquarters at Alwar as per Government Proceedings No. 9899-931 R7 / 91-95 dated 4th May 1897.

The total Hoblis in the district are therefore 64 as entered in the statement referred to.

2 The enclosures are re-submitted.

Yours faithfully

Asst. Commissioner

GENERAL POST OFFICE

Section 22
File No 94/93
Serial No

My dear Colepant,

In reply to your D.O. of 11th July 1899, giving your opinion on the subject of training the present Sheikdars in the land measuring work, I am directed to state that what has been proposed in the draft order (herein enclosed to be obligingly returned) is an ad interim arrangement having for its object to improve the existing staff as far as it goes and is possible. As you think that the period of one month fixed in the draft order is not enough, I would request you to fix such as Govt know what a period which in your opinion would be a sufficient period for the purpose.

Instead of the Sheikdars being trained by Taluk Measurers, it would perhaps be better to send them to the Head

(98)

the Head Quarters School at Bangalore with a view to obtain better results. If during this course ~~be adopted~~, it ~~what would be the time required~~ for training a Sheikdar to the necessary extent. Kindly let me know your further views in the matter for the information of Govt.

Yours

5-9-99

~~is advisable to know~~ before hand the maximum period that would generally be required

Order dem. for examination in
Para A.O. 3 8th inst regarding
the training of Volunteers.

Having regard to the mark to be awarded from candidates and which in the drafts is demanded as the qualification necessary candidates should attain about 4 months, the Head Quarters Board suffice of the view is not for the any good at all. The board is entrusted at the number of men to train every year. Any man who cannot qualify in 4 months should be sent back and if passed inefficient

Shekdars to be taught should come to me for inspection before joining Class. I suggest this as a precaution against absolutely useless men coming under instruction. No man under to get a certificate of proficiency from me. The certificate would be limited to actual qualifications. A man might be able to sub-divide a survey Number and be quite unable to measure a village.

I return draft order.

If any Shekdars are sent to Head Quarters to be trained I should like to have timely notice as our present accommodation is insufficient. I should have to put a larger room and keep an orderly

Nearness to Jesus.

C. Stanmore Taylor Esq.

(14)

57

Bangalore
11th July 1899

P. No 29.
M.F. 20 Aug 1899.

My dear Mr Lemmergar

Your note of to-day, with draft of the enlistment of the Lascar Service, deals with so serious a matter that I have no time in replying

2. I have had no opportunity of reading the remarks made by the various Capts Comm on the subject, so cannot discuss their views

3. Do not suppose me an enemy to progress if I give an opinion somewhat adverse to that laid down in the draft

4. Before a Capt for Duty I held an appointment by the Bombay Govt examination, a competitive examination in the Govt for post as Learners in my Dept at which from 400 to 500 Candidates appeared. By these, after personal examination I selected some 200, physically fit, not too old and not too young. These 200 were examined in various subjects in arithmetic and also as to good handwriting and neat figuring, both points of great importance. Of these now the 33 first on the list are called upon to take on, being practically trained under a qualified Learner. They have been at class for some 3 months and are doing well. The list remains, of course, 12 or 30 more men who may be considered good

case material if necessary required.

4. The above staff should ensure that the death and pension work running to the best of the men available & taken measures. No candidate over 28 years of age was admitted for examination the usual age is 25 but I strictly adhere to point

5. Now as regards Sheristadars I think it is scarcely likely that many of the existing Sheristadars would, under any knowledge of the requirements of the Dept, have been even allowed to appear for examination. Few (I write under correction) would have passed the Matriculation age test, & very few might have passed the examination

6. Next we have the general question to answer - Can we wisely make Sheristadars do the executive, Magisterial measure, but since the Magistrates who make reports and inspections & are responsible themselves must, for the discipline & steward of Sheristadars. It is a dangerous experiment. In Bombay only trained men are made Circle Inspectors. Revenue Officers have

55

15. Your plan is not approved & and if you can get over this difficulty & adding Brannen's duties to the present Shubrick duties then the plan sketched out is Paras 11 & 13 inclusive will be the very best. The present incipient Shubrick will gradually disappear.

16. You will be able to judge from what I have above written how far I agree with the proposed contract & this way I have made a few pencil remarks marginally

Yours very sincerely

L Secretary

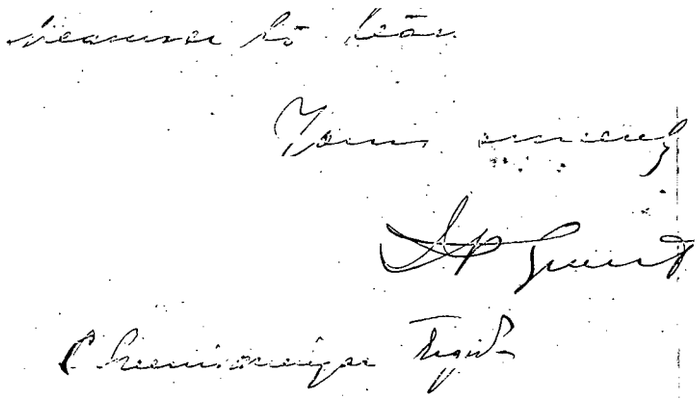
11/9/99

duty of Sheikdars. The Order of 4th April 1900 has greatly changed the aspect of the present question from what it was. when the Proceedings of Government No (9) 1812-22 R.F. 263-92 dated 16th August 1897 were published. A Sheikdar qualifying as a passed Measurer and holding a Certificate to that effect from me might be employed to make a new Survey. when ordered by me under Para 2. of the Order of 4th April 1900 but no Sheikdar should "ex officio" neces

necessarily carry out such work.

4. The above views do not stand in the way of my having a certain number of Sheikdaris put through a course of useful instruction at a training Class which I shall organize to open on 1st November next. Some of them may possibly qualify as trained Measurers and to such I will grant a Certificate. The others will at any rate learn a good deal that will be very useful to them in the ordinary

duties



60

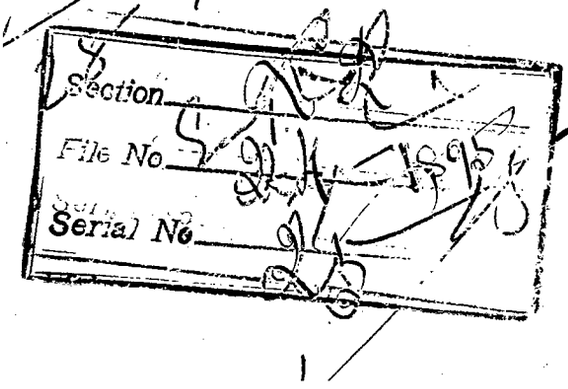
The S. Supt

No. 2871 9

~~2936~~

L.T. 20 of 9.8.98

28.9.98



Sir,

I am directed to forward herewith a sketch and order which is required for giving the more intelligent of the Cantt Sheristadars some knowledge of land measuring and of inspecting the boundary marks with reference to the village maps. Most of them are deficient even in understanding correctly the village maps - The matter is pressing and pending the final revision of the Sheikdari service an effort to improve the existing men seems very desirable as at present even men cannot even

duties of their Office. To such men as show the necessary capability, short of that required for a Measurer, I will grant a corresponding Certificate.

5. With the above remarks and any such weight as Government may feel inclined to give to them, I think the proposed draft will answer all purposes.

6. It is evident that under the views entertained by Government the training Class will

will become a permanency and in this there can be no harm but rather good and something like 200 Sheikdars could be put through a course of undoubtedly useful instruction annually.

7. There is only one doubt which occurs to me which is that the Class of one Sheikdari is to be sent from each Taluk will be almost too large and will entail the use of a comparatively large building and perhaps two

be limited to keep
do the Bahaié
inspiration effectively.
I am hopeful
that you will
favour the Govt.
with your views
and suggestions
on this important
and pressing
question.

Survey Department Office
Bangalore 15th October
1929

To

The Secretary to the
Government of Mysore
Law and Ex Dept.

Sir.

I have the honour to
acknowledge the receipt of
your letter No 2874 dated
R.T. 20/9/29
25th September 1929 forward-
-ing draft of Order pro-
-posed to be issued for
giving the area intelli-
-gent of the existing
Village Area Knowledge
of land measuring and

Why arrangements should not at once be effected for giving the existing Sheikdars some training in the land measuring work and in that of testing the inspection of the boundary marks with reference to village maps. On this point the suggestion made by the Deputy Commissioner of Tumkur seems practical and it is to the effect that one Sheikdar in each Taluk may be temporarily relieved and placed under instruction in the Taluk as the District Surveyor for the period of one month, during which time

Sheikdars
employing
standard
tape of the
Sheikdars
in addition
to their
present
land measuring
establishment
as far as
possible in
examination
of boundary
marks—

he must be required to learn this work and obtain a certificate of proficiency. But the Survey Superintendent thinks that a period of four months is necessary and that the Sheikdars thus selected should first present themselves before him and obtain his permission to attend the training class attached to his office in Bangalore. He also suggests that the Sheikdars may not get Government approve of this suggestion and accordingly direct that Sheikdars thus selected may be sent to report themselves to the Survey Superintendent not later than the 15th of Nov

and Boundary Mark — inspection, and asking for my views on the — question.

2 The reduction in the amount of Subdivision — work, as the result of — Government Proceedings No. 7044 — R. 2309 dated 4th April 1900, and the com- paratively large number of Measurers I have found it possible to leave with various Deputy Commiss- ioners, after organizing the Measuring Establish- ments required for the Re-Survey work to com-

commence on 1st November next, renders the present Sheikdar question less pressing but I am quite prepared to open a class for instruction, say on 1st November next. At the same time, and in the same class, I propose to put the three new Revenue Probationers who are to be attached to this Department through a course of instruction.

3. I very respectfully demur to the subdivision of Survey Numbers being regarded as the legitimate

duty

two instructors instead of one. Perhaps 4 from — each District might be considered sufficient as a beginning.

READ AGAIN—

Proceedings of Government No. 1814-22—R. F. 263-92, dated 16th August 1897, observing that it is a legitimate duty of shekdars to carry out the subdivision of Survey numbers, and requesting the Deputy Commissioners to report how many of the shekdars in their districts know land-measuring and to express their views as regards the re-adjustment of hoblis.

READ—

The following replies from the Deputy Commissioners:—

(1) Letter No. 40, dated 10th July 1898, from the Deputy Commissioner, Tumkur district.

(7) Letter No. 599, dated 5th January 1899, from the Deputy Commissioner, Mysore.

(8) Letter No. 483, dated 5th January 1899, from the Deputy Commissioner, Hassan.

(9) Letter from the Survey Superintendent, No. 237, dated 1st October 1900.

No. 3425-33—R. 1122, DATED BANGALORE, 26TH OCTOBER 1900.

ORDER THEREON—The orders conveyed in Government Proceedings No. 7044—R. 2309, dated 4th April 1900, and the comparatively large number of Measurers whom the Survey Superintendent has been able to leave with the various Deputy Commissioners after organizing the Measuring establishment required for the Revenue Survey work, render it unnecessary that the Shekdars, unless fully qualified and certified to that effect by the Survey Superintendent, should be entrusted with the work of subdividing Survey numbers. To this extent, the orders contained in Proceedings No. 1814 read above are modified. But the necessity continues of improving the standard fitness of the present Shekdars in regard to their ability in the measuring of lands as well as in conducting the examination of the boundary marks. From the replies read above, it is observed that out of 460 Shekdars in the whole State, only 50 have a good knowledge of land-measuring work, and 95 know a little of it, while the others know nothing of the work. The question of the improvement of the Shekdari service and the re-distribution of hoblis is under the consideration of Government. But pending final orders thereon, there is no reason why arrangements should not at once be effected for giving the existing Shekdars some training in the land-measuring work and in that of testing the inspection of the boundary marks with reference to village maps. On this point the suggestion made by the Deputy Commissioner of Tumkur seems practical, and it is to the effect that one Shekdar in each taluk may be temporarily relieved and placed under instruction, during which time he must be required to learn this work and obtain a certificate of proficiency. The Survey Superintendent thinks that a period of

four months is necessary and that the Shekdars thus selected should first present themselves before him and obtain his permission to attend the training class attached to his office in Bangalore. He also suggests that four Shekdars may be sent from each district at a time. Government approve of this suggestion and accordingly direct that Shekdars thus selected may be sent to report themselves to the Survey Superintendent not later than the 15th of November next. During their absence, arrangements will be made to have their work done by the neighbouring Shekdar or otherwise without having recourse to fresh appointments and thereby entailing additional cost upon Government. When one batch of Shekdars returns, another batch will be sent, and this procedure may be adopted by all the Deputy Commissioners, so that in course of time all those duly qualified among present Shekdars may acquire a fair insight into this important work. Government take this opportunity of impressing upon the Deputy Commissioners the great necessity of appointing only qualified men as Shekdars. The educational and physical qualifications are of primary importance, and, as already directed none but those who have passed the qualifying Educational examinations laid down in Government Notification No. 3, dated 12th April 1888, and whose physical fitness is certified by a competent Medical Officer, should be appointed.

C. SREENIVASIENGAR,
